

Trainee Position – Light commercial Vehicle Lock Fitter [Dartford Kent]

We are an auto electrical company working in the London and South East of England. Our business is growing rapidly and we are proud of our team, packed with diversity and experience. We are looking for an energetic, friendly, and enthusiastic person to be part of our family run company.

Your role will involve both on site and workshop based training. You will be working alongside our senior engineers learning how to install a variety of physical security to Light Commercial vehicles, such as locks, plates, OBD protection, security grilles etc along with light commercial van accessories to include ply lining

Details:

- . Full time position - 40 hours per week
- . Clean UK driving licence.
- . GCSE English/Maths
- . Relevant NVQ (Motor/Electronic/Electrical) preferred but not essential.
- . Flexibility with hours as you will be working with a senior engineer.
- . Benefit of paid overtime.

There will be an initial interview leading to a trial period to assess suitability for both parties.

If you would like to apply for this position please contact Lisa Brandon on 0208 318 9200 or email at lisa@avalimited.co.uk.
