

Trainee Position – HGV Electrical Engineers [Dartford Kent]

We are a rapidly expanding auto electrical company working in the London and South East area of England and have vacancies for trainee HGV Electrical Engineers. We are proud of our team, packed with diversity and experience and the candidates we are looking for should be energetic, friendly, and enthusiastic to be part of our family run company.

The role will involve on the job training as well as on site working. You will work alongside our senior engineers learning the day-to-day workings of HGV electrical engineering including installing security equipment, safety camera systems, beacons, led light bars, heaters, HGV Cab entertainment etc.

Details:

- . Full time position - 40 hours per week
- . Clean UK driving licence.
- . GCSE English/Maths
- . Relevant NVQ (Motor/Electronic/Electrical) preferred but not essential.
- . Flexibility with hours as you will be working with a senior engineer.
- . Benefit of paid overtime.

There will be an initial interview leading to a trial period to assess suitability for both parties.

If you would like to apply for this position please contact Lisa Brandon on 0208 318 9200 or email at lisa@avalimited.co.uk.
